

You're spending on health purchases anyway, save money when you spend with a **tax-free** account.

# FLEXIBLE SPENDING ACCOUNT (FSA)

**Save up to \$915 a year** when you use an FSA for qualified health purchases.\*

## Save on everyday health expenses

Over-the-counter treatments, doctor visits, dental, vision, and more – tax free.

## Why FSA?

Employers and employees both win with this enticing tax and health benefit. When employees enroll (and re-enroll) in an FSA, they save themselves and their employer in payroll-related costs.

- Maximum tax savings on every dollar contributed to an FSA plan
- Improved employee health, satisfaction, productivity, mental health & personal financials
- FSA benefits extend to spouses and dependents, too

## Truly useful tax savings

Just a few things FSA funds can be used for:

Doctor visits

Prescription & over-the-counter meds

Prescription eyeglasses or contacts

Baby care

Menstrual care

First aid & pain relief

Dental care

Diagnostics & health tech

Chiropractic care

Skincare & sunscreen

## Savings snapshot

If you contribute \$1,400 to your FSA, you can save \$420 in income taxes.\*

Whatever you choose to contribute, the entire amount is available for use on day one of your plan.
