

# NEW BABY? AN FSA CAN HELP.

With a new baby, everyday health costs can really add up. **Save up to 30%** on qualified health expenses with a **Flexible Spending Account** (FSA).\*

### Did you know?

For 2023, you can contribute up to \$3,050 to your FSA. Since that's tax-free income, it's a great way to effectively increase your take-home pay.

#### How an FSA helps the whole family

An FSA lets you set aside pre-tax dollars so you can save on qualified health expenses, including everyday health products, prescriptions, doctor visits and much more.

#### Spend smart, so you can enjoy more

When you put money into an FSA, you're saving up to 30% in taxes.\* Which means the dollars you spend on healthcare and everyday health & wellness essentials go even further for baby, mom and the whole family.

#### **DID YOU KNOW?**

The full amount you opt to add to your FSA is available immediately.
You don't have to wait for it to accrue to take care of

to accrue to take care of small — or larger — health expenses whenever they arise.

## Just a few of the FSA eligible expenses you can save on:

Medications

Pregnancy & fertility tests

Breast pumps & milk storage bags

Baby health monitors

First-aid & children's pain relief

Nursing pads

...and much more.
